## ABOUT DEXTER

Dexter Formulations Private Limited, established in 2009, is on its path to become one of the leading manufacturers in the pharmaceuticals industry, which produces allopathic and nutraceuticals products. Dexter manufactures in all products using first grade raw material and adhering to international process and standards. The company focuses on providing high quality appropriately Competitive priced products to its customers and supports all these with dedicated customer service. Dexter has a good network with national and international traders and distributors. This aspect ensures availability of Dexter products in the global market. Team Dexter is prompt and perfect. It always moves with time management. The First seed for Dexter Formulations Private limited is planted by Mr. Vijay S – young and energetic entrepreneur in 2009 his dynamism and foresighted decisions have helped us in grabbing the best business opportunities and a milestone, towards fully equipped Liquid Oral unit, under the support and Guidance of our Mentor Mr. Sankar A S, a veteran in the pharmaceutical Industry

## Who We Are

Dexter has evolved into a leading manufacturer and supplier of a wide range of pharmaceutical products. our well established Supply chain will enable us to provide superior products and specialty drugs at competitive prices. We are catering to the needs of hospitals, Clinics, Pharmacists and nursing Homes. We have a world class processing unit holding the certifications of GMP, ISO 9001-2000, where our medicines are hygienically processed in a clean and isolated environment. Owing to this, these are in adherence with international quality standards. Our manufacturing unit is well-equipped with the latest machines thus enabling us in the effective production of chemicals utilizing innovative technology. Our total quality management system includes rigorous testing of the entire product range at each processing stage in order to assure optimum quality products at our customers' end.

## **Manufacturing**

DEXTER is the most promising contract manufacturing organization in the Indian Pharma Industry that serves the pharmaceutical industry with comprehensive services from drug development through manufacturing.

The services offered by DEXTER include, Outsourcing to a contract manufacturing services which allows the marketing companies to expand the technical resources without increase in overheads. Working with the CMS also limits marketing company's upfront capital investment for drug development, thus minimizing the project costs. It will also help the outsourcing companies to minimize their technical transfer of projects or products, thereby reducing unforeseen cost and potentially speeding new products in the market.

DEXTER has world class manufacturing facilities equipped with ultramodern plants and machineries for manufacturing various formulations in wide range of dosage forms, including; liquid syrups, nutraceuticals products.

DEXTER has appointed well Experienced Qualified and Competent Technical Personnel in various departments like Quality Assurance, Quality Control, Production, Personnel & Administration, Engineering & Warehouse.
